THE WORKING OF AN ARENA TRIAL IN VICTORIA

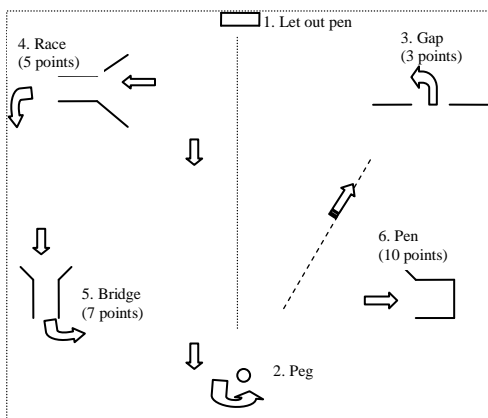

- SHEEP DOG TRIALS that are held on an arena use three sheep for each trial. The sheep are usually deposited by a trailer and released from a let-out pen (1).
- Each trial begins when the worker takes up his position at the peg (2), with his dog about 10 metres behind.
- A siren signifies the start and the time-keeper starts the watch. Time allowed for the trial is 15 minutes.
- Each dog starts with 100 points. Points are then progressively deducted according to the judge's assessment.

Modified Course

MAXIMUM POINTS:

Cast	12
Approach	5
Bringing	8
Obstacles	25
General Work	50 (force, steadiness, control of sheep & dog)

A perfect cast is when the dog runs out in an arc and takes up a commanding position directly behind the sheep, and then moves them gently but firmly in a straight line towards the worker (to the left of an imaginary centre line). As the sheep are drawn down they must be balanced in a straight course and brought around the worker at the peg (2) in an anti-clockwise direction.

Having completed the cast, lift and draw, the worker then walks in a straight course to the first obstacle (the gap - 3), with the dog balancing the sheep close to his right. On arrival at the gap, the sheep are forced, or balanced, through a metre gap between two 3-metre hurdles.

He then moves on to negotiate the race (4). Having negotiated the race (4), he proceeds to the bridge (5), keeping the sheep on his right, he finally approaches the pen (6). The course is completed when the sheep are in the pen and the gate is shut.

The dog must not cross between the worker and the sheep at any time, except when forcing in a proper manner at an obstacle. Should he do so, the worker is disqualified.

In the event of having not completed the course within the 15 minute time limit, he will retain his points, less deductions for the obstacles that have not been completed.

NOVICE TRIAL – start 7am

15 min Trial.
